#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Marttinen 4,452,383.

Marttinen teaches a strap system comprising a proximal strap 14, 19, 20, with two ends 18, 21, a distal strap 16 with two ends joined to the proximal strap, curved pads 13, 15, and adjustable buckles 22.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Marttinen 4,452,383 in view of Moomaw 2,915,233.

Marttinen teaches the claimed invention except that the distal strap is joined to the proximal strap by connecting rings instead of overlapped and sewn as claimed.

Moomaw teaches a similar strap system comprising a proximal strap 10 and a distal strap 23 in which the ends of the distal strap are overlapped with the proximal strap and

sewn together. See in particular figure 1. It would have been obvious to one of ordinary skill in the art to substitute the attachment means of Moomaw for the means taught by Marttinen since both inventions teach art equivalent means for attaching distal straps to proximal straps.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
